You must create a Google Doc Presentation on the country assigned to you. You must include the following information:

- **Location:** What countries border it? What bodies of water border it? Etc.
- **Flag:** Picture, what does each part represent?
- **Government and Leader:** What type of government do they have? Who is their current leader?
- **Food:** Find a popular dish in the country and describe it. A recipe would be good.
- **Tourist Attraction:** Where do people visit there? Why is it popular?
- **Currency:** Name of the currency and include the exchange rate to the equivalent of $1 US Dollar.
- **Famous Person:** Find a famous person from that country. Tell why they are famous and a little about them. This can be an athlete, actor, actress, model, singer, musician, writer, artist, etc.

**DO NOT:**
- Copy and paste: Use your own words. Bullet points are great.
- Use long paragraphs. This is boring to those looking at the presentation and it’s harder to retain information.

**Helpful Links:**
